

## Social math platform

**100,000** kids  
excited about math

# The problem with math

1

## We want kids to succeed in math

- Parents - success in life and in school
- Teachers and schools - math scores

### **Math is a critical**

for post high school education and higher wage jobs.

# The problem with math

1

## Math for kids is boring and hard

- Low motivation to practice math
- Friends: in person, chats, social media
- Play: video games (2h/day)

**During remote learning**, this leads to declined practice and slide in mathematics skills.

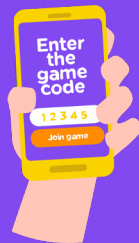

# The Solution - Math Game

**in school**  
with classmates

**at home**  
with friends

**LIVE games**  
global players

# Students love it

## Social gaming platform

Friends, teams,  
community

Feel of play,  
competition,  
immediate rewards

### Gives kids

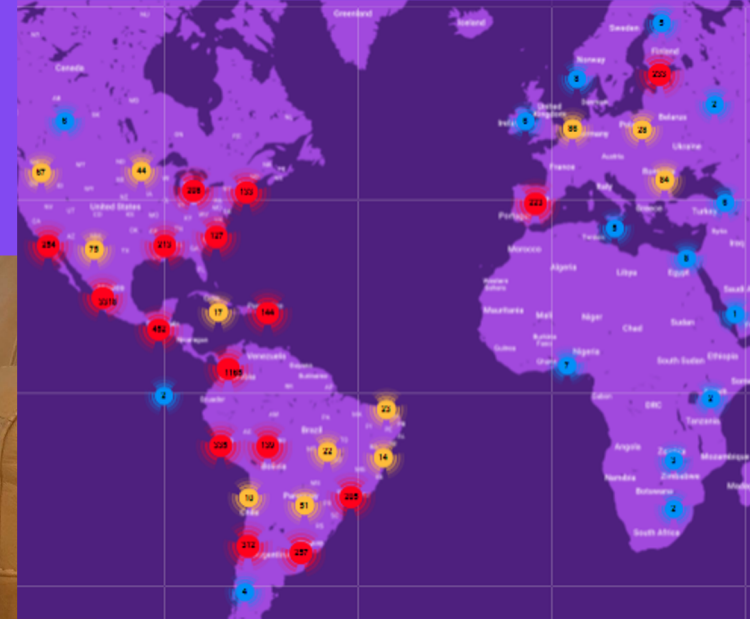

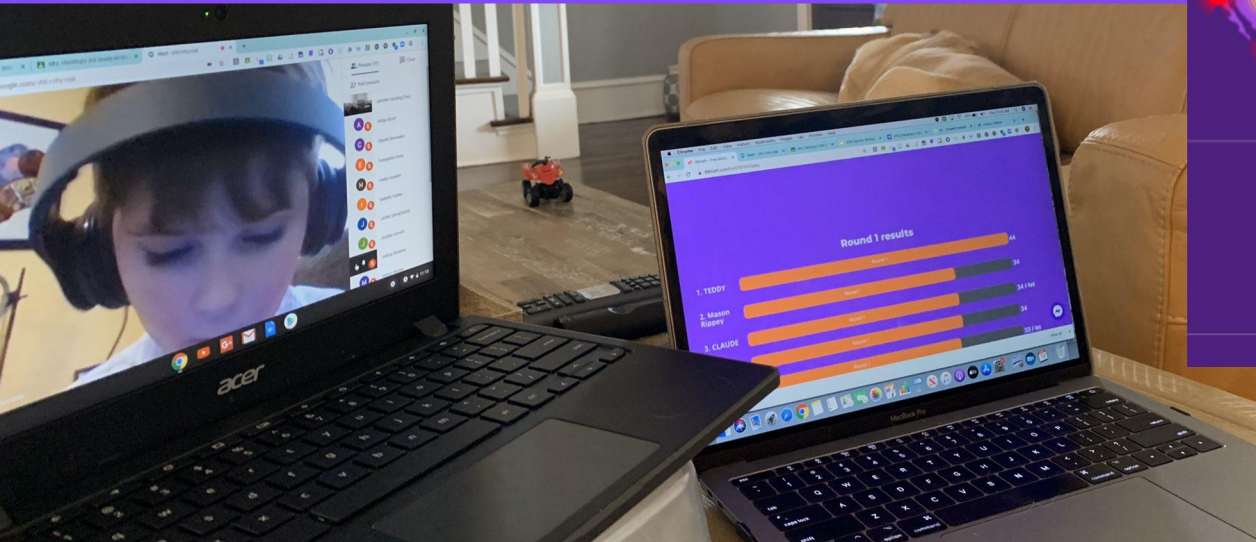

**Motivation to practice**

To train specific skills

Compare results, improve

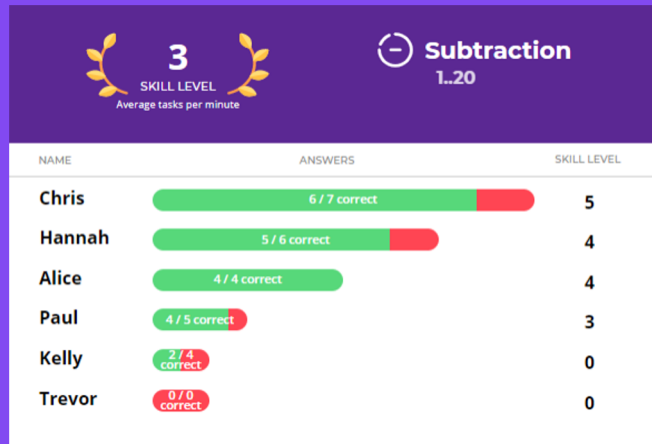

# Kids play at home, globally

# Teachers love it

- 1-min setup
- Automatic task creation
- Focused training
- Motivated to practice
- Progress reports

**Jennifer Williams**  
2nd Grade Teacher

Using @99mathgame to practice fact fluency and my class LOVES it!

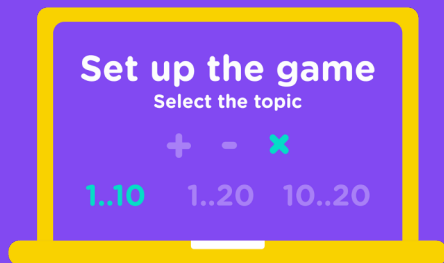

**Amy Noyes**  
K-8 Teacher

#JUSDHARES if you are practicing math facts with your students, you need @99mathgame in your life! Great engagement, stats and easy to navigate! The best part is that it is free!! Check them out today!

# Play in 3 steps

in **classroom** and **remote learning**

1. Teacher selects the topic

2. Students play on any device

3. Celebration and analytics

# Play the lesson / give homework

## Choose game mode

### Live Game

Play together in a classroom or virtual lesson. Most fun.

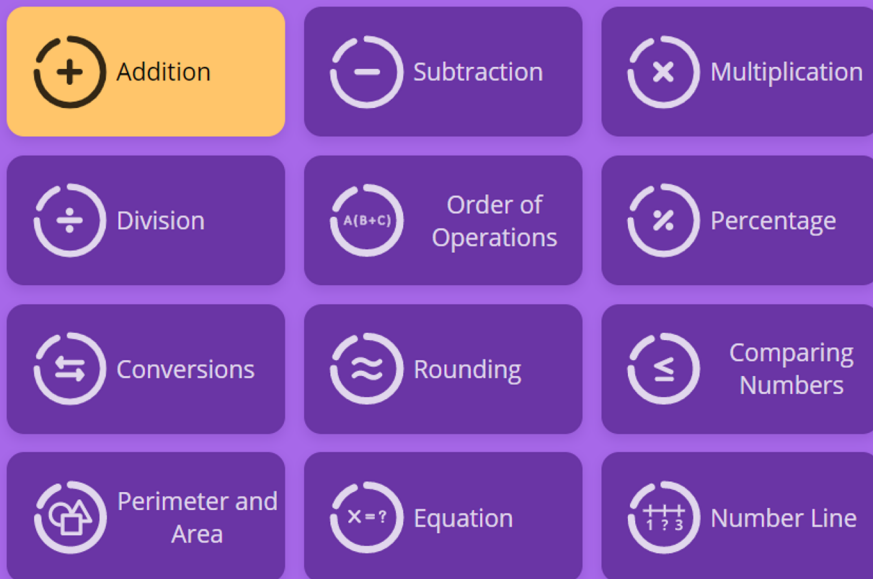

### Homework

Students solve on their own time. Best for self-paced practice.

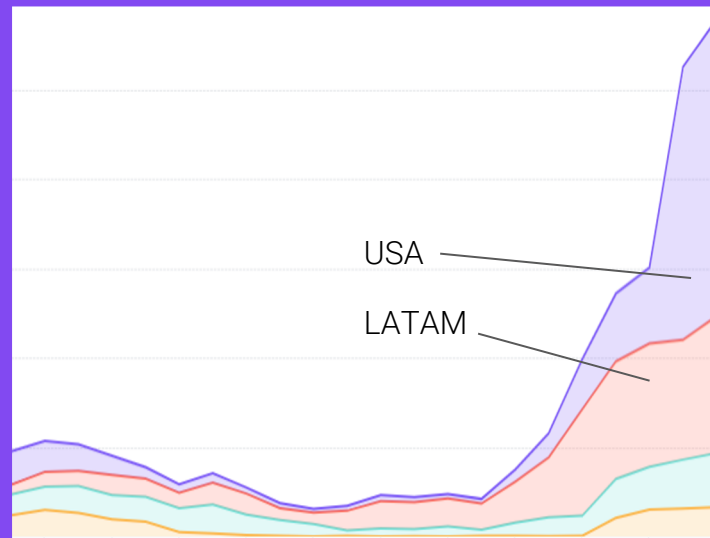

# 50 million math tasks solved

100,000 monthly active users

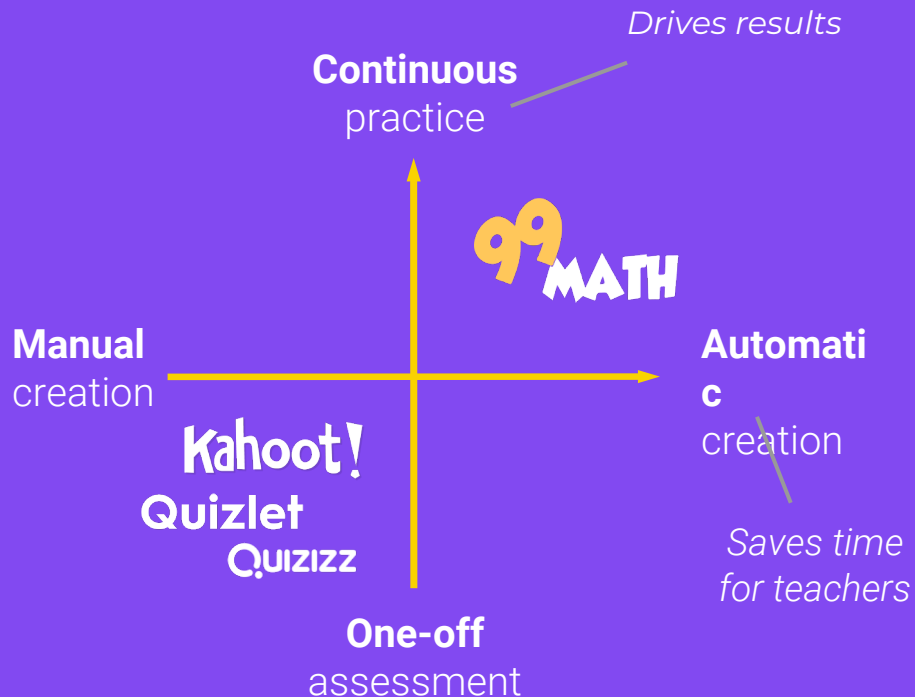

## Fast growth

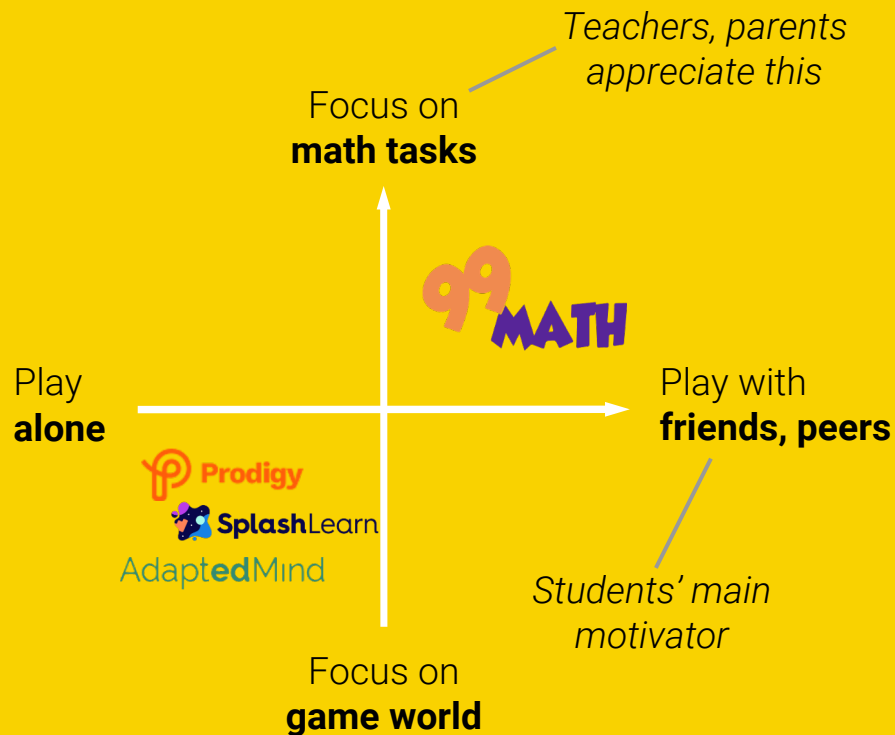

Active teachers May-Sep

# Compared to quiz games

# Compared to math games

**Thank you**

**Free to play!**
